SUBJECT: Waiver to Landscaping Requirements
Homes at Pine Crossing (Formerly Eastgate Terrace)

This memo is to request a waiver to certain landscaping requirements at the above referenced property. As you know, the housing apartment complex formerly known as Eastgate Terrace is undergoing modernization. The housing authority and its development team recently discussed a potential negative impact of the landscaping requirements for this property. While we understand the intent, we believe the property will be better served with a few modifications that would enhance the safety and security for the residents and still meet the City's goals. We are requesting the following waivers with listed replacement enhancements to the landscaping requirements:

- Omit the 4' continuous opaque screen per North Little Rock Municipal Code Article Fifteen to provide police officers and all other first responders "***line of sight***" into the property from outside the perimeter fence.

- Relocate 17 *"street trees"* to keep them inside the property line and avoid planting them where concrete is present in some cases. These trees will instead be planted within the property in various locations.

- Add 672 more plants to the 1008 required to further enhance curb appeal. The majority will be three (3) gallon plants, with some seven (7) and fifteen (15) gallon plants added as well. The community center/office will receive extra landscaping with additional planters. The monument sign at the front entrance will also receive additional landscaping.

Your support of these changes would be greatly appreciated. For additional information, feel free to contact me at 501-758-8911 or Project Manager, Brian Pickett at 318-245-2625.

Thank you.
