To open a food service establishment in Arkansas, the owner has to go through a Plan Review (501) 661-2623) with the Arkansas Department of Health most of the time. The only exception is when an establishment hasn't been closed before another establishment is opened at same location. (When this happens, the owner will only have to call the Environmental Health Specialist to change ownership, name, etc.) The Plan Review guidelines and the Rules & Regulations Pertaining to Retail Food Establishments book are available at any local health unit.

After the Plan Review dept. approves your plans, they send a letter to the local health unit. The food service establishment owner calls the local health department (501) 791-8551 to make an appointment to open the establishment. The Environmental Health Specialist conducts a walk-through inspection to confirm design specifications and compliance with the regulations. You will receive your bill for your permit in the mail within a few months. Presently, the cost is \$35.00. This fee does not include business licenses, which can be obtained from the North Little Rock's City Clerk office. A copy of the approved to open Health inspection papers are required to be submitted In person to the City Clerk's office before applying for your Privilege license.
