The Honorable Joe Smith, Mayor
Mayor of North Little Rock
City Hall – Main Street
P.O. Box 5757
North Little Rock, AR 72119

Mayor Smith,

It was good to speak with you today by phone and re-connect with each other. As I shared during our conversation, I have accepted a new work re-assignment within Baptist Health as the Western Region President located in Fort Smith. In connection with this re-assignment, I have recently placed my home in North Little Rock on the market for sale and have relocated my residence to Fayetteville. Based upon the foregoing information, I am respectfully submitting my resignation as one of the North Little Rock Representatives appointed to serve on the MEMS Board of Directors.

I was appointed to the MEMS Board of Directors in April 2001. Over the ensuing years attending the Board Meetings and working with other Board Members and MEMS Executives, I have experienced first-hand the unique and high-level organizational motivation and organizational effectiveness with the MEMS operations. MEMS has over its life-time evolved into one of a limited number of EMS organizations within the nation which others recognize for its breadth, scope, and effectiveness and which others aspire to emulate.

The City of North Little Rock and its citizens are served exceeding well and effectively by MEMS. This is a testament to the foresight of city leaders in prior decades to participate in the establishment of MEMS in order to most effectively serve the citizens in the Central Arkansas metropolitan area.

I appreciate the opportunity to have served on the MEMS Board of Directors during the past 18 years. During these years on the board, I am grateful for all that I have learned.

Please call upon me in the future if I can assist. North Little Rock will forever hold a "special" place in my heart for the personal and professional opportunities which it has provided to me.

Respectfully,

Harrison M. Dean

CC: Troy Wells, Baptist Health
Bill Bowers, MEMS
Jon Swanson, MEMS
