Old Business

Lighting update: Mr. Rogers says the crew is finishing up the final punch list right now, and should be finished in the next few days. Mr. Rogers and Blake Roberson are happy with the work the crew has done.

New Business

Electric department: The NLR electric department would like to use some more space south of their building to use as light pole training. They need about 100x100 space. The commission says they’re okay with that in principal, he just needs to meet with Mr. Rogers on the specific requests, and to work out a lease rate.

State grant option: Mr. Rogers says he has a plan for state grant funded improvement projects, one of which will be fence work to open up the Maryland ave. gate, and to do some pavement work where it’s needed. Mr. Roberson discusses the project and what fence work would be required. The commission discusses options on where the gates will be to give everyone easy access.

The commission agrees to the concept as requests Mr. Rogers and Mr. Roberson bring back the specific grant request to be approved in March.
Dennis Thomas Hangar: Mr. Halter says Mr. Thomas contacted him to discuss a longer lease term. Mr. Thomas says he wants to do some improvements to the hangar, but doesn’t want to without a lease longer than 5 years. The commission discusses the hangar, and the spot where it is located. Mr. Rogers says Mr. Thomas is currently on a year to year lease. The commission discusses, but they agree they wouldn’t want to give him more than five years. Mr. Rogers says he’ll talk to Mr. Thomas and let him know.
