AGENDA FOR NORTH LITTLE ROCK WASTEWATER TREATMENT COMMITTEE MEETING

RE: Committee Meeting
PLACE: Faulkner Lake Treatment Plant
7400 Baucum Pike, North Little Rock, Arkansas 72117
DATE: October 8, 2019
TIME: 12:15 PM

- (1) ROLL CALL OF THE COMMITTEE MEMBERS
- (2) APPROVAL OF THE MINUTES OF THE SEPTEMBER 10, 2019 MEETING
- (3) CASH DISBURSEMENTS FOR SEPTEMBER 2019
- (4) FINANCIAL REPORT FOR SEPTEMBER 2019
- (5) SOLAR PROJECT UPDATE
- (6) OPERATIONS TRUCK REPLACEMENT
- (7) PENSION PLAN CONTRIBUTION

(1)

ROLL CALL of the COMMITTEE MEMBERS

(2)

NEW BUSINESS

ACTION REQUESTED:

Approval of the Minutes of the September 10, 2019 Committee Meeting

NORTH LITTLE ROCK WASTEWATER TREATMENT COMMITTEE

MINUTES OF A MEETING HELD TUESDAY, SEPTEMBER 10, 2019

A meeting of the North Little Rock Wastewater Treatment Committee was held on Tuesday, September 10, 2019 at the administrative offices located at the Faulkner Lake Treatment Plant.

The meeting was called to order by Chairman Matthews at approximately 12:15 p.m. The roll was called and a quorum was present. Those in attendance at the meeting were Mr. K.W. Matthews, Mr. Sylvester Smith, Ms. Karen Bryant and Mr. Gabe Stephens, and in addition, Mr. Jack Stowe, representative from the City of Maumelle, Mr. Richard Penn, City Engineer with the City of Sherwood. Also in attendance were Mr. Marc Wilkins, Director, Mr. Michael Clayton, Assistant Director, Ms. Gina Briley, Mr. Charles Frost, Mr. Ronnie Thompson, Mr. Lyle Luebner, Ms. Kris Ramon, Mr. Sam Hilburn with Hilburn, Calhoon, Harper, Pruniski & Calhoun, Ltd. and Dawn Harmon.

First, the Committee reviewed the minutes of its Special Call Meeting held August 7, 2019. There being no questions or comments, a motion was made by Mr. Smith, seconded by Ms. Bryant, to approve the minutes of the August 7, 2019 Special Call Meeting. The motion carried unanimously.

The Committee then reviewed the minutes of its August 13, 2019 meeting. There being no questions or comments, a motion was made by Mr. Smith, seconded by Ms. Bryant, to approve the minutes of its August 13, 2019 meeting. The motion carried unanimously.

Next, the Committee reviewed the cash disbursements for the month of August 2019. After discussion, a motion was made by Mr. Stephens, seconded by Ms. Bryant, to approve the cash disbursements for August 2019 reflecting total cash disbursements of \$2,289,403.89 and fund transfers between accounts of \$1,695,666.67. The motion carried unanimously.

Upon motion made by Mr. Stephens, seconded by Ms. Bryant, the Committee unanimously approved the Financial Statement August 2019.

Mr. Wilkins then advised the Committee that the staff received a quote from CBM Construction Co. to remove the abandoned Bryant's building (McSwain) and a wood frame structure from the property along the east side of the Faulkner Lake WRF.

Previous studies revealed the presence of asbestos in the roofing and in the floor covering. The cost to remove the structures completely including asbestos abatement, demolition, removal and project management is \$30,852.00. This item was not included in the 2019 budget, but will be paid for as a change order to the Collections Systems Building Addition and Renovations Project. A motion was then made by Mr. Stephens, seconded by Ms. Bryant, to authorize the staff to execute a change order to the Collections Systems Building Addition and Renovations Project for the removal of the abandoned Bryants' building (McSwain) and secondary structure in the amount of \$30,852.00. The motion carried unanimously.

Next, Mr. Wilkins advised the Committee that while performing routine maintenance on lagoon surface aerators, the staff discovered that the high water levels from the flood had caused aerator anchor points to break off from six of the fiberglass aerator floats. The staff has obtained a quote for six replacement floats from the existing equipment supplier, Environmental Technical Sales. For mitigation, mooring springs were also quoted to accommodate higher than normal water levels. Each aerator float has four mooring cables that anchor it in place, and adding the springs will allow the aerators to accommodate another 2.5 feet in water depth. Since the damages were flood related, this expense has been submitted to FEMA.

Aerator Float Assembly	6@	\$3,195 each	\$19,170
Mooring Springs with Snap Hooks	128@	\$ 74 each	<u>\$ 9,472</u>
Total			\$28,642

After discussion, a motion was made by Ms. Bryant, seconded by Mr. Stephens, to authorize the staff to purchase the float assemblies and mooring springs from Environmental Technical Sales in the amount of \$28,642.00. The motion carried unanimously.

The Committee then discussed the "Julian Street Sanitary Sewer Improvements Project." The staff received bids for this project on August 13, 2019 at 10:00 a.m. and the bids were read aloud. The project consists of rerouting approximately 442 linear feet of 12" PVC within the rights-of-way of Julian Street. The low bid was submitted by Diamond Construction, Inc. in the amount of \$88,985.00. The project is included in the 2019 budget for \$120,000.00. A motion was made by Mr. Smith, seconded by Ms. Bryant, to authorize the staff to award the contract for the Julian Street Sanitary Sewer Relocation Project to Diamond Construction, Inc. in the amount of \$88,985.00. The motion carried unanimously.

Next, the Committee discussed the fact that the Utility's agreement for audit services ended with the 2018 audit, and the Utility requested a proposal from EGP, PLLC for audit services for the years 2019, 2020 and 2021. Mr. Wilkins confirmed that the three year proposal submitted by EGP was:

We expect our professional fees to perform the audit for the Utility for the single year ended December 31, 2019, to be \$25,000 - \$30,000 for a financial audit or \$40,000 - \$35,000 for a single audit under Title 2 U.S. *Code of Federal Regulations* ("CFR") Part 200 *Uniform Administrative requirements, Cost Principles, and Audit requirements for Federal Awards*. The fees would be subject to a 3% - 5% increase annually following the first year. Travel, report processing and out-of-pocket expenses will be billed separately.

A motion was then made by Ms. Bryant, seconded by Mr. Smith, to authorize the staff to enter into an agreement with EGP, PLLC for audit services for the years of 2019, 2020 and 2021. The motion carried unanimously.

Mr. Wilkins then update the Committee as follows:

Fire Insurance Status - no additional payments have been received since the initial check. Mr. Wilkins stated that final payment would be forthcoming pending completion of the construction project.

APERMA - the Utility's rates have stayed the same over the last several years. APERMA has lost clients over the past few years to ACC and Municipal League. Last week, Mr. Wilkins and Mr. Clayton attended a meeting with APERMA regarding this matter. To maintain coverage through APERMA, they will raise the Utility's rates approximately 33% over the next three years. The first years increase of 15% will be approximately \$18,000.00. APERMA will send out letters in October so that current members can budget for the increase.

Conference Room in Administration Building - the floor has become unlevel and looking into the cause, mold was discovered under the floor that was most likely caused by a leaking toilet. A mold expert has been called to assess and remove the mold. Additionally, the following will need to be fixed and/or replaced - floor and carpet in the conference room, restroom, insulation needs to be replaced under the floor and the vapor barrier will need to be replaced. Mr. Wilkins stated that since CBM Construction is still on site, it would like to obtain a quote from them and use this as part of the ongoing construction project. After further discussion, a motion was made by Mr. Stephens, seconded by Mr. Smith, to negotiate a price with CBM Construction and use this repair as part of the ongoing construction project. The motion carried unanimously.

FEMA - Mr. Wilkins then advised the Committee as to the categories and amounts under review due to the flood.

Solar Project - the sub committee met on August 21 and a determination was made to target the small generation services. A letter was forwarded to Scenic Hill Solar, LLC on August 26th requesting pricing for:

- (1) a qualifying solar service agreement under A.C.A. § 23-18-603(7)©; and in the alternative
- (2) a design-build contract under A.C.A. §22-9-203(j). The facility will have the following characteristics:

Location:	NLRWW File Mile Treatment Plant in Sherwood, Arkansas
Capacity:	1,000kW (DC)
First-year production:	1,400,000 kWh (AC) minimum
Commissioning:	Six (6) months after execution of agreement
Energy attributes:	To be held by NLRWW
Media releases:	NLRWW approval required until commissioning + 60 days
Liquidated damages:	\$150/day after scheduled commissioning

Additionally, Mr. Smith asked Mr. Wilkins to check with Scenic Hill Solar to determine what the actual cost difference would be between a 1, 2 or 2.5 array. Mr. Smith wants to be certain that the Utility is being prudent with its customers money.

A motion was then made by Mr. Smith, seconded by Mr. Stephens, to excuse the absence of Mr. Ed Nelson. The motion carried unanimously.

There being no further action to come before the Committee, a motion was made by Mr. Smith to adjourn the meeting. The motion carried unanimously, and the meeting was adjourned at approximately 12:47 p.m.

APPROVED AS TO FORM:

RESPECTFULLY SUBMITTED,

K. W. MATTHEWS, CHAIRMAN

SYLVESTER SMITH,
VICE-CHAIRMAN/SECRETARY

(3)

SOLAR PROJECT UPDATE

(6)

OPERATIONS TRUCK REPLACEMENT

Faulkner Lake Operators have two 2004 Chevy Pickup trucks with 97,000 and 106,000 miles. Faulkner Lake Groundskeeper has a 2009 Ford truck with 206,000 miles that is in very rough mechanical shape. Staff recommends replacing the 2009 Ford and rotating one of the Chevy trucks over to the Groundskeeper. Operations staff is in need of one larger 4-wheel drive vehicle to transport staff and materials to the other treatment plants. This allows for all weather treatment plant access and towing equipment such as generators, pumps, and tractors. Staff recommends purchase of a crew cab 4x4 F250 purchased off the state bid in the amount of \$27,525. This purchase was included in the 2019 budget in the amount of \$28,000. The 2009 Ford would be auctioned off on Govdeals.com.

ACTION REQUESTED:

Authorize staff to purchase this vehicle from the state bid in the amount of \$ \$27,525.

(7)

PENSION PLAN CONTRIBUTION

The Retirement Committee of North Little Rock Wastewater met on August 27, 2019. The July 1, 2019 actuarial valuation report, provided by Mr. Jody Carreiro of Osborn, Carreiro & Associates, Inc. suggested a contribution of at least \$575,000. The Retirement Committee, recommends a contribution amount of \$705,000. This would pay out the unfunded liability in approximately 6 years. Mr. Nelson will provide a summary of the actuarial report.

ACTION REQUESTED:

Authorize the contribution amount of \$705,000 to the North Little Rock Waste Water Utility Defined Benefit Pension Plan and Trust by January 1, 2020.

RE: North Little Rock Wastewater Utility Defined Benefit Pension Plan and Trust

Dear Charles:

This report presents the results of our actuarial valuation of the assets and liabilities of the North Little Rock Wastewater Utility Defined Benefit Pension Plan and Trust as of July 1, 2019. This valuation determines the contributions for the 2019 Plan Year (July 1, 2019 to June 30, 2020).

A brief summary of the more important figures developed in this valuation, with comparable results from the prior administrator's report, follows:

	<u>7/1/2017</u>	<u>7/1/2018</u>	<u>7/1/2019</u>
Number in Plan			
a) Active Members	80	82	79
b) Inactive Members	71	75	81
Salary of Actives in Plan	\$ 3,675,206	\$ 3,843,866	\$ 3,856,063
Assets	\$ 10,932,283	\$ 11,646,585	\$ 13,202,660
Contribution Levels			
a) Pay UAAL in 10 years (% of covered payroll)	\$ 702,970 (19.13%)	\$ 698,563 (18.17%)	\$ 575,971 (14.94%)
b) Pay UAAL in 20 years (% of covered payroll)	\$ 563,085 (15.32%)	\$ 563,710 (14.67%)	\$ 487,910 (12.65%)

Actuarial Status of Plan

The Contribution level for the 2019 Plan Year (July 1, 2019 to June 30, 2020) ranges from \$487,910 (12.65% of covered payroll) to \$575,971 (14.94% of covered payroll). The \$487,910 amount will pay off the Unfunded Actuarial Accrued Liability in 20 years, while the \$575,971 amount will pay off the Unfunded Actuarial Accrued Liability in 10 years.

We recommend that you contribute at least \$575,000 for 2019. This recommended amount is about 14.9% of payroll. The amount for the 10-year amortization, which has been the goal of the board in recent years, is the same. With the funding method being used, the trustees have a range of contributions within which the plan stays “on track” for good funding. As you see in this report, between 13% and 15% of payroll is the current range. This percentage of payroll should be a good planning range unless an outlying event occurs.

Changes Since Last Year

The 10-year amortization basis contribution is lower than last year mainly due to the additional contributions made during the 2018 Plan Year. The additional contributions increased the funding percentage by 4.39% while other gains accounted for an additional 2.64% increase.

Accounting Information

The GASB 67 and 68 information needs to be compiled right after the calendar year end to correlate with the utility’s fiscal year end. A separate report will be compiled at that time using this valuation report as the basis for calculations.

Risk Disclosures

The calculations in this report are based on the data and assumptions as outlined in the attached Exhibits. This report is based on the participant and financial data supplied by the plan sponsor. We did not audit this data, although we did review it for reasonableness and consistency. We have relied on the data provided to us. If any of this data is incorrect or incomplete, the results of our calculations could be materially different.

Actual future measurements of the actuarially determined contributions and funded status may differ significantly from expected future measurements. There are several areas of risk that may cause the calculations to differ, including: plan experience differing from the anticipated economic assumptions (investment return, inflation, and salary increases), plan experience differing from the expected demographic assumptions (rates of termination, disability, retirement and death). The user should understand the ongoing risks involved in using these results.

The largest area of risk is the long term expected rate of return. One measure of this will be found in Appendix D of the GASB report when finalized. If the long term expected rate of return was reduced by 1% to 5.5%, the UAAL (and Net Pension Liability) would be increased from \$1.75 to \$3.4 million. The following table includes some other key amounts to be considered.

<u>Year End</u>	<u>Funded Percentage</u>	<u>Net Pension Liability</u>	<u>Assets</u>	<u>Covered Payroll</u>	<u>Ratio of Assets : Payroll</u>	<u>ADC of 1% Change In Assets</u>
6/30/2013	75.84%	2,515,946	7,899,467	3,375,994	234.0%	0.32%
6/30/2014	78.65%	2,506,653	9,232,043	3,125,501	295.4%	0.40%
6/30/2015	81.55%	2,139,514	9,456,840	3,288,939	287.5%	0.39%
6/30/2016	80.62%	2,387,875	9,934,713	3,621,125	274.4%	0.37%
6/30/2017	79.62%	2,786,093	10,883,507	3,675,206	296.1%	0.40%
6/30/2018	81.21%	2,685,871	11,611,424	3,843,866	302.1%	0.41%
6/30/2019	88.24%	1,753,904	13,165,165	3,856,063	341.4%	0.46%

Funded Percentage is a good measurement, but by itself is not a reliable barometer of plan health. The Funded Percentage also does not tell us the changes in assumptions. In your case, in 2014 with the implementation of GASB 67, we changed the valuation method and mortality to reflect current practice which reduced the Funded Percentage. Then in 2017, we changed the discount rate to 6.5%.

Many reports will use the ratio of Assets to Payroll as a risk indicator. This ratio is shown in the table. This is a good ratio since as this ratio grows it shows how much more risk is involved when the market moves. But we have also included an indicator titled “ADC of 1% Change in Assets”. We took one percent market value of assets each year and calculated how much that would have changed the ADC (Actuarially Determined Contribution, i.e. the 10 year amortization) that year as a percentage of payroll. This shows more clearly how market fluctuations will change the ADC. As the plan is better funded, changes in the market are the biggest risk areas for contribution amount.

One other area to consider is the demographic assumptions. The size of the liability gains and losses each year have been relatively small. We need to regularly schedule to review those assumptions and can review the variance in liabilities due to these different assumptions as part of that process. In particular, our current mortality table does not reflect ongoing mortality improvement.

Scope of Report and Statement of Qualifications

The purpose of this report is to help the plan sponsor evaluate the plan status and funding requirements for an on-going plan and to present certain actuarial items required for disclosure purposes. This report is not intended for any other purpose or for use by persons who are not familiar with such matters.

This report has been prepared by actuaries who have experience valuing public employee retirement systems. To the best of our knowledge, this report is complete and accurate and was completed in accordance with standards of practice promulgated by the Actuarial Standards Board and in conformance with applicable Arkansas law. The actuaries know of no significant conflicts of interest with the plan sponsor. The actuaries are Members of the American Academy of Actuaries (MAAA) and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained in this report.

We are available to discuss this report with you in detail as desired. In the meantime, if you have any questions or comments, please let us know.

Sincerely,

A handwritten signature in black ink that reads "Jody Carreiro". The signature is written in a cursive style with a large initial "J" and "C".

Jody Carreiro, ASA, MAAA, EA

EXHIBIT 1
CONTRIBUTIONS

The following contribution level reflects the payment of the current year Normal Cost for benefits attributable to said year (see Exhibit 2) plus an amount sufficient to pay off the Unfunded Actuarial Accrued Liability ("UAAL") over a set number of years.

	<u>7/1/2018</u>	<u>7/1/2019</u>
Annual Contribution necessary to:		
A. Pay UAAL off in 10 years		
1. Normal Cost	\$ 372,160	\$ 359,055
2. 10-year amortization of UAAL	304,414	198,786
3. Interest adjustment	21,989	18,130
4. Total Cost	\$ 698,563	\$ 575,971
(percent of pay)	(18.17%)	(14.94%)
B. Pay UAAL off in 20 years		
1. Normal Cost	\$ 372,160	\$ 359,055
2. 20-year amortization of UAAL	173,806	113,497
3. Interest adjustment	17,744	15,358
4. Total Cost	\$ 563,710	\$ 487,910
(percent of pay)	(14.67%)	(12.65%)

EXHIBIT 2
COSTS AND LIABILITIES

The average attained age of the retirees in the valuation is 71.50
The average annual benefit of those included in the valuation is \$ 13,140

EXHIBIT 5

PRINCIPAL PROVISIONS OF THE PLAN

<u>EFFECTIVE DATE:</u>	July 1, 1963.
<u>EMPLOYER:</u>	North Little Rock Wastewater Utility.
<u>PLAN YEAR:</u>	July 1 to June 30.
<u>PARTICIPATION:</u>	An Employee is eligible to enter the plan on the date following twelve (12) months of employment and the attainment of age 25.
<u>EMPLOYEE CONTRIBUTIONS:</u>	None.
<u>COMPENSATION:</u>	Compensation as reported on Form W-2.
<u>FINAL AVERAGE COMPENSATION:</u>	Average compensation over the 5 consecutive calendar years out of the last 10 that produces the highest average.
<u>YEARS OF CREDITED SERVICE:</u>	One year for each Plan Year in which he completes 1000 hours of service.
<u>YEARS OF PARTICIPATION:</u>	One year for each Plan Year in which he completes 1000 hours of service.

EXHIBIT 5 (Continued)

NORMAL RETIREMENT:

Eligibility: Age 65 and 5 years of participation.

Benefit: 2% of Final Average Compensation times Years of Credited Service at Normal Retirement Date not to exceed 30.

Form: Life with 10 years certain annuity.

ACCRUED BENEFIT: 2% of Final Average Compensation times Years of Credited Service not to exceed 30.

EARLY RETIREMENT:

Eligibility: Age 55 and 10 years of participation.

Benefit: Accrued Benefit reduced by 1/180 for the first 60 months and 1/360 for the next 60 months.

DISABILITY BENEFITS:

Eligibility: Total and permanent disability.

Benefit: Accrued Benefit, actuarially reduced.

DEATH BENEFITS:

Eligibility: Death of a vested Participant.

Benefits: The Present Value of Accrued Benefits as a lump sum or in other optional forms.

VESTING: 100% after 5 Years of Service.

ACTUARIAL EQUIVALENT: RP-2000 Mortality Table (post-retirement only) at 6.50%.

EXHIBIT 6

ACTUARIAL COST METHODS AND ASSUMPTIONS

<u>COST METHOD:</u>	The "entry age normal cost method" has been used in determining retirement cost. The method used for the July 1, 2013 and previous valuations was the aggregate funding method.
<u>AMORTIZATION METHOD</u>	The entry age normal cost method also requires an amortization method to be used in calculating the range of recommended contributions. The Unfunded Liabilities are amortized on a level percentage of salary method and a range of 10 to 20 years is shown.
<u>PRE-RETIREMENT MORTALITY:</u>	RP 2000 table.
<u>POST-RETIREMENT MORTALITY:</u>	RP 2000 table. The mortality table used for the July 1, 2013 and previous valuations was the Unisex Pensioner 1984 table (UP84).
<u>MORTALITY PROJECTION:</u>	Future mortality improvements were not considered in developing the suggested contribution for this report. The liabilities are significantly more volatile with regards to the other assumptions (i.e., investment return, retirement age, and turnover) than with mortality improvement.
<u>VOLUNTARY TERMINATIONS:</u>	T-2 table.
<u>EXPECTED RETIREMENT PATTERN:</u>	Retirement was assumed to occur on the Normal Retirement Date.
<u>ASSUMED INVESTMENT RETURN:</u>	6.50% beginning with July 1, 2017 (7.50% for prior years).
<u>SALARY AND PAYROLL GROWTH:</u>	3.50% annually (4.50% for prior years).
