**DATE:** 5/4/2022  
**RE:** Engineering Department Major Projects Status

---

**Dark Hollow Interceptor 2019 CIPP Rehabilitation:** The project is substantially complete. The project closeout is currently underway.

**Rose City and Military Drive Basins Pipe Bursting 2021 Rehabilitation:** The contractor began working on September 10, 2021. The contractor has successfully completed 12,849 linear feet of 26,215 linear feet of the pipe bursting project to date.

**Rose City and Military Drive Basins CIPP 2021 Rehabilitation:** The project is substantially complete. The project closeout process has begun.

**Dixie and Baring Cross Basins Pipe Bursting 2021 Rehabilitation Project:** This project consists of pipe bursting 18,858 linear feet of 6" and 8" sanitary sewer mains and externally reconnecting approximately 398 services. The contract was executed in January 2022, but the Notice to Proceed has not been issued.

**Bridgeway Pump Station Gravity Conversion:** This project consists of installation of approximately 2,367 linear feet of 8" gravity sewer in order to decommission the Bridgeway Pump Station. The project is substantially complete.

**Curtis Sykes and Meadow Park CIPP 2021 Rehabilitation Project:** This project consists of CIPP rehabilitation of 20,955 linear feet of 6"-15" secondary sewer mains. The Notice to Proceed was issued March 29, 2022. The cleaning and televising of the lines will begin May 9, 2022.

**Lower Riverside Interceptor CIPP 2017 Rehabilitation Project:** This project consists of CIPP rehabilitation of 4,344 linear feet of 54" reinforced concrete pipe. The scope of the project begins two line segments upstream of the Faulkner Lake WRF headworks and continue upstream for 4,344 linear feet. The Notice of Award was issued to Insituform Technologies, LLC on March 16, 2022. A preconstruction conference is scheduled for May 11, 2022.

**Curtis Sykes and Meadow Park Basins Pipe Bursting 2021 Rehabilitation Project:** This project consists of pipe bursting rehabilitation of 27,194 linear feet of 6" and 8" secondary sanitary sewer mains and external reconnection of approximately 493 services. The Notice to Proceed was issued on April 25, 2022. The pre-CCTV and cleaning are underway.

**Biosolids Removal and Land Application:** This project consists of removal of approximately 3,000 Dry Tons of biosolids from the Five Mile Creek Polishing Pond and approximately 3,500 Dry Tons of biosolids from the Faulkner Lake east lagoon. The removal process is scheduled to begin this month if the weather permits.

**Five Mile Creek Basin Interceptors Assessment:** This project consists of multi-sensor inspection of approximately 37,161 linear feet of interceptors sizes 24"-36" within the Five Mile Creek WRF Basin. Bids were opened on April 28, 2022, and the low bidder is Ace Pipe Cleaning with a bid amount of \$238,034.10. A request for authorization to award the contract is on this month's agenda.

## Five Mile Plant

- Electrical storm on 4-17-22 caused failures of the effluent generator, automatic transfer switch, flowmeter, West Aerator #4, plant gate opener, and various SCADA hardware. Everything is currently functional with exception of the effluent flowmeter. Parts are on order for the meter and are scheduled to ship on May 6<sup>th</sup>.
- Solar plant experienced a failure on Inverter #5 on 4-27-22. It caused a chain reaction that shut the entire solar array down until it was diagnosed and isolated. Scenic Hill Solar is currently working with the inverter manufacturer to get it resolved.

## Faulkner Lake Plant

- Valves and associated hardware are onsite for the East Lagoon valve and piping project. United Rentals is scheduled to be onsite May 5<sup>th</sup> to aide NLRWU staff with installation of 36 well points to lower the water table. Valve vault is scheduled to arrive the week of May 16<sup>th</sup> – 20<sup>th</sup>.
- Operations staff modified sludge valves and piping to allow the Moyno feed pumps to send sludge to the lagoons after a polymer treatment. This should produce a bonded sludge and will enhance settling, like the way the Maumelle sludge is treated prior to releasing into the White Oak lagoons. Utilization of this method began last week and requires more polymer than the belt press operation. Additional instrumentation was installed to better manage the polymer batching and aging. Polymer rep also came out and retrieved sludge samples to look for a product better suited to the application.
- Clarifier Launder Cover materials are set to ship the week of May 23<sup>rd</sup>.

## Maumelle Plant

- Effluent Pump #1 repair is complete, and pump is back in service.

## NORTH LITTLE ROCK WASTEWATER UTILITY

Approval of the Minutes of the April 12, 2022, Committee Meeting

## **NORTH LITTLE ROCK WASTEWATER TREATMENT COMMITTEE**

### **MINUTES OF A MEETING HELD TUESDAY, APRIL 12, 2022**

A meeting of the North Little Rock Wastewater Treatment Committee was held on Tuesday, April 12, 2022, at the administrative offices located at the Faulkner Lake Treatment Plant.

The meeting was called to order by Chairman Matthews at approximately 12:15 p.m. The roll was called, and a quorum was present. Those in attendance at the meeting were Mr. K.W. Matthews, Mr. Ed Nelson, Ms. Karen Bryant, Mr. Gabe Stephens and Mr. Sylvester Smith. Also in attendance were Mr. Michael Clayton, Director, Ms. Gina Briley, Mr. Sam Hilburn and Ms. Paula Storeygard with Hilburn & Harper, Ltd., Ms. Lindsay Baker of EGP, PLLC and Marolyn Dorman.

First, the Committee reviewed the minutes of its March 8, 2022, meeting. After review, a motion was made by Ms. Bryant, seconded by Mr. Nelson, to approve the March 8, 2022, minutes. The motion carried unanimously.

Chairman Matthews then moved Agenda Item 5, *2021 Audit Report*, to be heard next, and Ms. Lindsay Baker presented the audit findings.

The financial statements for the year ended December 31, 2021, in the opinion of EGP, PLLC are found to be materially correct, requiring no modifications. North Little Rock Wastewater is financially sound based on opinion of findings and free from misstatements. It is noted that pension liabilities were down, and assets performed well in 2021. No deficiencies in internal control were identified. Performance testing was done and disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

A motion to accept the audited financial statement was made by Mr. Smith and a second was provided by Mr. Nelson. The motion passed unanimously.

Next, the Committee reviewed the cash disbursements for the month of March 2022. There being no questions or comments, a motion was made by Mr. Nelson, seconded by Mr. Smith, to approve the cash disbursements for March 2022 reflecting total cash disbursements of \$2,137,815.26 and fund transfers between accounts of \$1,749,200.00. The motion carried unanimously.

Upon motion made by Mr. Nelson, seconded by Mr. Stephens, the Committee unanimously approved the Financial Statement for March 2022.

The staff received bids for the “Curtis Sykes and Meadow Park Basins Pipe Bursting 2021 Rehabilitation Project” on Thursday, March 10, 2022, at 1:00 p.m. The project includes pipe bursting of about 27,194 feet of 6 and 8-inch gravity sewer mains and reconnection of approximately 493 services. The low bid was submitted by Horseshoe Construction, Inc. in the amount of \$1,779,766.00. After some discussion, a motion was made by Mr. Smith, seconded by Mr. Stephens, to authorize the staff to award the contract for the Curtis Sykes and Meadow Park Basins Pipe Bursting 2021 Rehabilitation Project to Horseshoe Construction, Inc. of in the amount of \$1,779,766.00. The motion carried unanimously.

Director Clayton then reported regarding Entergy’s net metering accounts from the Solar Farm at Five-Mile Treatment Plant. Based on before and after solar online averages, annual savings of about \$107,000 are projected. This is close to what was projected when this project was proposed. Greater savings should be realized since Entergy is due to enact a 7.2% rate increase on one of the riders in the Entergy bills.

Copies of the 2021 Annual Report made to ADEQ were provided to the Committee. Mr. Clayton noted that it is no longer a requirement this report be made to ADEQ since NLRW has been released from Consent Order. However, it is good practice, and it is anticipated to be done annually going forward.

The Director advised regarding odor complaints from the public, especially neighbors near the Faulkner Lake Treatment Plant. Waste Management tripled charges for landfill costs to North Little Rock Wastewater. As a result, the filter press was shut down and sludge is being held in the lagoons until the biosolids can be hauled to permitted land application site. ADEQ has been onsite and reviewed operations process and a plan is in place to address the issue.

Mr. Clayton also reported on another citizen who regularly reports to ADEQ each time a manhole overflows in his area. The area is near Camp Robinson and is an area destined for rehabilitation. Director Clayton’s plan is to ‘ramp up’ rehabilitation projects.

He presented North Little Rock Wastewater’s request to the ANRC (at their suggestion) for a \$45,000,000 loan to include consideration of reducing interest rates on three outstanding loans. If approved as requested, on May 10, 2022, this loan would be at 1.75% interest and result in a savings of \$2,229,330.13 over the currently due interest over the life of the 3 outstanding bonds. This savings would allow for more money available for rehabilitation projects and as a counter measure to inflation pressures.

There being no further action to come before the Committee, the motion made to adjourn was approved, and the meeting was adjourned at approximately 1:00 p.m.

**APPROVED AS TO FORM:**

K. W. MATTHEWS, CHAIRMAN

**RESPECTFULLY SUBMITTED,**

SYLVESTER SMITH,  
VICE-CHAIRMAN/SECRETARY

(3)

## **CASH DISBURSEMENTS FOR APRIL 2022**

### **ACTION REQUESTED**

Approval of the Cash Disbursements for April 2022 showing total  
Cash Disbursements of **\$1,964,329.00** and  
Fund Transfers between accounts of **\$1,583,800.00**.

### **Five Mile Creek Interceptors Assessment Bid**

Staff received bids for the “Five Mile Creek Interceptors Assessment” on, April 28, 2022, at 1:00 PM. The Project consists of condition assessment of 24”, 30” and 36” Reinforced Concrete Pipe interceptors using digital HDCCTV, Sonar, and Laser Profiling of approximately 37,161 linear feet. Assessment of the interceptors in the Five Mile Creek Basin includes North Little Rock Wastewater and City of Sherwood sewer facilities. NLRW’s portion of the assessment is 16,365 linear feet or 43.64% of the total while City of Sherwood’s portion of the assessment is 21,137 linear feet or 56.36% of the total.

The low bid was submitted by Ace Pipe Cleaning, Inc. in the amount of \$238,034.10 and the 2022 budget amount for the project was \$250,000. A copy of the Bid Tabulation is attached.

#### **ACTION REQUESTED:**

Authorize staff to award the contract for the Five Mile Creek Interceptors Assessment to Ace Pipe Cleaning, Inc. in the amount of \$238,034.10.
