Haunted attractions are entertainment venues designed to thrill and scare patrons. Most attractions are seasonal Halloween businesses that may include haunted houses, corn mazes, and hayrides, and the level of sophistication of the effects has risen as the industry has grown.

The first recorded purpose-built haunted attraction was the Orton and Spooner Ghost House, which opened in 1915 in Liphook, England. This attraction actually most closely resembles a carnival fun

house, powered by steam. The House still exists, in the Hollycombe Steam Collection. It was during the 1930s, about the same time as trick-or-treating, that Halloween-themed haunted houses first began to appear in America. It was in the late 1950s that haunted houses as a major attraction began to appear, focusing first on California. Sponsored by the Children's Health Home Junior Auxiliary, the San Mateo Haunted House opened in 1957. The San Bernardino Assistance League Haunted House opened in 1958. Home haunts began appearing across the country during 1962 and 1963. In 1964, the San Manteo Haunted House opened, as well as the Children's Museum Haunted House in Indianapolis.

The haunted house as an American cultural icon can be attributed to the opening of the Haunted Mansion in Disneyland on 12 August 1969. Knott's Berry Farm began hosting its own Halloween night attraction, Knott's Scary Farm, which opened in 1973. Evangelical Christians adopted a form of these attractions by opening one of the first "hell houses" in 1972.

The first Halloween haunted house run by a nonprofit organization was produced in 1970 by the Sycamore-Deer Park Jaycees in Clifton, Ohio. It was cosponsored by

WSAI, an AM radio station broadcasting out of Cincinnati, Ohio. It was last produced in 1982. Other Jaycees followed suit with their own versions after the success of the Ohio house. The March of Dimes copyrighted a "Mini haunted house for the March of Dimes" in 1976 and began fundraising through their local chapters by conducting haunted houses soon after. Although they apparently quit supporting this type of event nationally sometime in the 1980s, some March of Dimes haunted houses have persisted until today.

On the evening of 11 May 1984, in Jackson Township, New Jersey, the Haunted Castle (Six Flags Great Adventure) caught fire. As a result of the fire, eight teenagers perished. The backlash to the tragedy was a tightening of regulations relating to safety, building codes and the frequency of inspections of attractions nationwide. The smaller venues, especially the nonprofit attractions, were unable to compete financially, and the better funded commercial enterprises filled the vacuum. Facilities that were once able to avoid regulation because they were considered to be temporary installations now had to adhere to the stricter codes required of permanent attractions.

In the late 1980s and early 1990s, theme parks entered the business seriously. Six Flags Fright Fest began in 1986 and Universal Studios Florida began Halloween Horror Nights in 1991. Knott's Scary Farm experienced a surge in attendance in the 1990s as a result of America's obsession with Halloween as a cultural event. Theme parks have played a major role in globalizing the holiday. Universal Studios Singapore and Universal Studios Japan both participate, while Disney now mounts Mickey's Not-So-Scary

Halloween Party events at its parks in Paris, Hong Kong and Tokyo, as well as in the United States. The theme park haunts are by far the largest, both in scale and attendance. *Found at en.wikipedia.org/wiki/Halloween#Trick-or-treating-and-guising*

- 1. Keep Your Pet Inside! Pets left outdoors can encounter tricksters. PetMD has noted that some people will harass, harm, steal and event kill pets left outside on Halloween.
- 2. Keep Candy Out of Reach! Make sure that all candy is kept safely away from inquisitive pets. Don't forget about the wrappers, too, since some pets will investigate and eat those.
- 3. Put the Pumpkin Somewhere Safe. Keep jack-o-lanterns and festive pumpkins out of the reach of pets. Although pumpkin is generally safe, eating too much of it can cause upset stomachs according to the ASPCA. In addition, candles in jack -o-lanterns can singe curious pets or cause

fires if knocked over! Even if you use glow sticks, the AVMA reminds pet parents that those can cause pets to salivate excessively and behave strangely

- 4. Remove Your Pet Before Trick-or-Treat. Consider keeping your dog or cat in a room away from the front door. Aside from the dangers of door dashing, even calm pets can be upset by the strange sights and sounds of trick-or-treaters. You also want to be sure that your pet won't scare or accidentally harm a trick-or-treater with an exuberant jump!
- 5. Don't Forget ID. Whatever else you do, be sure that your pet is wearing identification. Learn why Petfinder believes that all dogs should wear collars

and tags (cats, too!). It's also a good idea to update your pet's microchip. If your pet isn't microchipped yet, learn how they work and some of the benefits of microchipping your pet. While following our tips should keep your pet from becoming lost, it's always better to be prepared — just in case.

Pet Poison Helpline—24/7 Animal Poison Control Center—855-764-7661.

Did you know during the week of Halloween, calls to veterinarians at Pet Poison Helpline increase by 12 percent, making it the call center's busiest time of the year. "Each year we experience a sharp increase in calls around Halloween, especially during the weekends surrounding the holiday," said Ahana Brutlag,

DVM, MS.

"Most often, these calls involve pets accidentally ingesting Halloween candy or décor. Chocolate is one of the most problematic candies as dogs and cats cannot metabolize it as well as people. Thus, it places them at risk of poisoning."

Of all candy, chocolate is one of the most toxic to pets. Calls to the pet Helpline regarding exposure to chocolate involved dogs 98% of the time. Many dogs are attracted to the smell and taste of chocolate, making it a significant threat. In general, the darker and more bitter the chocolate, the more poisonous it is. Did you know that a 50-pound dog can be sickened by ingesting just one ounce of Baker's chocolate! If

you think your pet may have ingested chocolate, symptoms to watch for include vomiting, diarrhea, lethargy, agitation, increased thirst, an elevated heart rate, and in severe cases, seizures.

Pets look cute in costumes, but they might not enjoy it as much as their owners. If you dress your pet in a costume, be sure it doesn't impair vision, movement or air intake. If the costume contains metallic beads, snaps or other small pieces, be aware that if ingested, some metals (especially zinc and lead) can result in serious poisoning. Also, don't be tempted to dye or apply coloring to your pet's fur. Even if the dye is labeled non-toxic to humans, it could still be harmful to pets.

North Little Rock Fire Department

In 1925, President Calvin Coolidge proclaimed Fire Prevention Week a national observance, making it the longest-running public health observance in our country. During Fire Prevention Week, children, adults, and teachers learn how to stay safe in case of a fire. Firefighters provide lifesaving public education in an effort to drastically decrease casualties caused by fires. Fire Prevention Week is observed each year during the week of October 9th in commemoration of the Great Chicago Fire, which began on October 8, 1871, and caused devastating damage. This horrific conflagration killed more than 250 people, left 100,000 homeless, destroyed more than 17,400 structures, and burned more than 2,000 acres of land.

Importance of Fire Prevention

In a fire, mere seconds can mean the difference between a safe escape and a tragedy. Fire safety education isn't just for school children. Teenagers, adults, and the elderly are also at risk

Business / Privilege License What is it and who has to have one?

In the 1940's, the City of North Little Rock passed Ordinances authorizing the **City Privilege Tax** to better regulate the general licenses in the city.

It is unlawful for any person, firm or corporation, or individual in the City of North Little Rock, Arkansas to engage in or carry on any business without having first obtained and paid the license fee as assessed by the city.

Definition of stock: shall include not only goods, wares, and merchandise, but all other articles and things carried for sale distribution by any persons, firms, corporation or individuals at one location.

A fee schedule was created at that time which included a variety of businesses that were being operated.

The city privilege tax aka Business License fee is a tax which is deposited by the City Clerk/Treasurer into the General Fund. Funds are used in all areas of the city, including supporting Police and Fire, Street Maintenance, Drainage, Animal Control, etc.

License Period—all licenses are valid for one-year (beginning January 1—expiring December 31).

Renewal Period—all licenses are due and payable January 2. However, since it would not be feasible to collect all payments on that date, a grace period is allowed from January 1—31. Licenses renewed AFTER April 1 are subject to a 25% penalty. Licenses renewed AFTER July 1 are subject to a 50% penalty.

Businesses that fail to renew for multiple years may be assessed back taxes (which include a 50% penalty).

Zoning requirements—all new businesses or those changing location are required to obtain a Zoning Certificate from the City Planning Department. The Zoning Certificate is then sent to the City Clerk and is valid for 30 days from the date of issue.

Liquor Sales—all businesses selling alcohol (beer, wine, liquor) must have a business license issued by the city. In order to obtain a city license, the business must have a current Arkansas Alcohol Beverage Control License.

Food Service and Lodging—restaurants, hotels and residential homes/rooms (like Air B&B) are all required to have a license. Food service businesses pay a base fee + \$18.00 per employee. Additional fees are due if the establishment provides catering or sells wholesale/retail merchandise.

Mobile Food Vendors—the city allows mobile food vendors, such as food trucks, to conduct business within the city limits at an approved location. In order to work an event in North Little Rock, the business representative must first get approval from the property owner, have a valid business license (can be from another city within the state), have a current Health Inspection, be inspected by the North Little Rock Fire Marshal. *Note:* to be considered a food truck the cooking equipment must be mounted to a trailer or vehicle, have proper ventilation, etc. If the equipment can be removed from the trailer or vehicle and set up under a tent, it does not qualify as a food truck—per the Arkansas Department of Health.

Who's an employee?—Any person who works parttime, full-time or any-time is an employee. **Lodging**—Home (Air B&B type) rentals. The person renting the property is required to obtain a Business License for each location being rented.

Rental Property (Commercial or Residential)—all persons renting or leasing property within the North Little Rock City limits is required to have a Business License and provide a Property Inventory List (address of the property and in the case of Commercial, square footage and description (warehouse, office).

Home Based Businesses—yes, these are required to have a license...this includes those selling products like Avon, weight loss supplements, home-made jewelry, etc.

Lawn care, pressure washing, janitorial services, internet sales, etc. that are operated from a home are all subject to the Business License fee. The fee is based on the type of business being operated.

Variables—in all cases certain variables may apply: number of employees, inventory, number or vehicles or tonnage, etc.

Non-Profit—all non-profit businesses operating in the city are also required to be licensed. If the non-profit is registered with the state, there is no fee. However, if the non-profit cannot provide proof of the 501 status, then a fee will be assessed.

Insurance Agencies, **Security Alarm**, **etc.**—these are also required to hold a license within the city. This is also a no-fee license with proof of current state license/ certification.

Peddlers—those selling seasonal items from a vehicle or trailer such as watermelons can only set up and sell from a location where they have a letter of approval from the property owner (cannot be a business renting or leasing the property), a zoning certificate and a Business License.

Door to Door Solicitors—all persons going door-to-door selling a product of any kind in the city are required to have a permit issued by the City Clerk. (Examples: Alarm sales, newspaper, termite protection, books or magazines, insurance, retirement planning, tree trimming, curb painting, etc.) An application, back-ground check, bond and other information are required. Persons going door-to-door without a city issued ID are subject to a citation or arrest.

Religious Groups, Scouts, Politicians—are exempt from the door to door solicitor licensing requirement.

Door Hangers—mailouts—persons either leaving door hangers or mailing flyers with coupons etc. are also required to have a license.

What if I don't want someone coming to my door? You need to put up a *No Soliciting* sign. Solicitors should not knock on a door with this signage.

If you are suspicious of ANY business activity, please call the City Clerk's Office at 501-975-8617 or 911.

For more information, visit the City's website at www.nlr.ar.gov, then click on the Government tab, followed by City Clerk/Treasurer. Scroll down to Business Licenses and Taxes. There are multiple areas with more detailed information. The current Business License fee schedule can also be found on this page; however, for a final fee quote, someone must contact the office for assistance with variables, etc.

Information regarding employee anniversaries and birthdates is provided by HR the prior year (i.e. 2018 was provided in 2017). So if an employee name is on the list that has retired or resigned, please disregard. Also, typos happen! Please let me know if a name is spelled wrong and a correction will be included next month! For employees who leave the city and come back in a different capacity or department, your length of service may change as well. Example, I worked in the Mayor's Office 10 years, then was elected City Clerk. I have been in the City Clerk's Office 18 years. My total service with the city is 28 years. If this scenario applies to you, please email me at least one month before the month of your anniversary month so I can include your total service to the City of NLR! Diane (Dwhitbey@nlr.ar.gov)
