## Residential Household Solid Waste

Guidelines for household waste disposal and pick up.

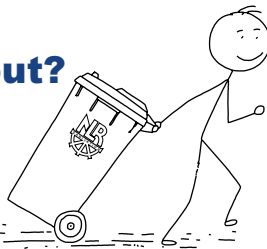

(Revised in May 2024)

The city of North Little Rock provides each household with one 96-gallon bin and weekly fully automated curbside collection service. The bin provided is the property of the city of North Little Rock and should not be altered, defaced, mutilated or removed from the residence upon exiting the structure. Additional bins are not available at this time. The wheeled bins are weather resistant and easy to maneuver, with tight-fitting lids that reduce problems with animals and other pests. Please place all recyclable products inside the green bin provided by Waste Management.

### When can I put my bins out?

By 7:00 a.m. on collection day, or after 5:00 p.m. the night before.

### When do I bring them back in?

No later than 8:00 a.m. the following day and stored in a convenient place at your house.

1. Place all garbage inside bin for collection.
2. Excess materials may be placed in a different container, which will be collected the same day.
3. Place the bin within five (5) feet of the street edge (but not in the street) with the handle facing away from the street.
4. Do not place bin directly underneath tree limbs or overhead object for safety reasons.
5. Overfilled bins will not be collected. Please do not attach any bungee cords or straps to keep the lid closed. We will not be able to dump your bin if the lid is strapped shut.
6. Park all vehicles allowing room for the sanitation truck on your scheduled collection day. Please be courteous of your neighbors by allowing room and not blocking collection of their bin as well.
7. Boxes must be broken down and placed inside the recycling bins provided by Waste Management.

### ✓ What goes in the bin?

Only typical household garbage goes into the bin. The garbage must be placed in plastic bags and sealed to prevent loose litter from falling out of the bin into the streets and to help keep your bin clean.

### ✗ What does NOT go in the bin?

- Yard waste (grass clippings, tree trimmings, leaves, etc.)
- Building materials, construction debris, lumber, shingles, rocks, etc.
- Household chemicals, medical waste, used oil, paint, etc.
- Electronics, appliances, etc.
- Any substance from a fire (hot coals, burnt leaves, ashes, etc.)

These items can be scheduled for collection by calling the Sanitation Department at 501-371-8340 or dropped off at a recycling location.
