System Price \$ 58,500.00

Pricing includes delivery, start up, initial air sample, and training at start up by CAT'S personnel. Pricing also includes 5 year extended warranty. This extended warranty increases the standard two year parts and labor warranty on the compressor block and purifier by an additional 3 years or 1000 hours.

The unit must be serviced by factory authorized personnel on a semi-annual basis, OEM components must be used, and the compressor must be run at least one hour per week. If any one of these terms are not met then the warranty coverage reverts back to the standard two year parts and labor warranty coverage.

The 208/230 volt three phase power supply the electrical compressor pigtail will need to be supplied by the North Little Rock Fire Dept.
